INTRODUCTION

The 2005-06 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1, 2005 and constitute the Government's formal request to the Legislature for approval of the amounts involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items in order to distinguish between their different functions. This vote/item structure permits the Legislature to be more specific in appropriating funds to particular services. Within each item, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates and Actual amounts for prior years are provided on ministry summary and program summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred. Reconciliation to previously published data is shown on each Ministry's summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Consolidation adjustments are provided on each ministry summary page. The adjustments reconcile the spending requests of ministries as set out in the Estimates to the annual Budget, which is prepared on a consolidated basis. Consolidation combines the items of ministries with those of other government organizations, i.e. agencies, boards and commissions.

Commencing in 2003-04, Estimates were presented on the accrual basis of accounting.

ALCOHOL AND GAMING MANAGEMENT PROGRAM :

This program establishes the regulatory framework and sets and enforces standards in specific business sectors through the Alcohol and Gaming Commission of Ontario. It maintains a database of consumer complaints, inspects and investigates questionable business practices, and takes enforcement measures when necessary. It also serves a compelling need for consumer protection or standards in industries where the risks of criminal activity and potential social costs are high (e.g., casino gambling, beverage alcohol).

TAX POLICY, BUDGET AND REVENUE OPERATIONS PROGRAM :

This program has two components, Budget and Taxation Policy, and Tax Revenue. The Budget and Taxation Policy area advises and assists the Minister of Finance and the Government in formulating Ontario Budget policy including tax policy, tax design and legislation, federal-provincial finance policy and pension and income security policy; develops the Ontario Budget and other major economic/fiscal documents; manages the province's taxation, intergovernmental finance and related policy development; co-ordinates research to identify broad economic taxation and fiscal implications of specific and emerging trends and developments.

The Tax Revenue area administers Ontario's tax statutes. The integrity of the province's self-assessment system is maintained by encouraging compliance through taxpayer information services and independent objections review, while discouraging non-compliance and tax evasion through collection activities, audits and investigations. The program also administers various tax credit and benefit programs.

PUBLIC HEALTH, HEALTH PROMOTION AND DISEASE PREVENTION PROGRAM :

The goal of the Public Health, Health Promotion and Disease Prevention Program is to protect, promote and enhance health, prevent or delay illness, injury and premature death of Ontarians at all stages of life. This program enables individuals, families and their communities to identify and respond to their health needs. This program also reflects the Ministry's changing direction as it re-focuses Ontario's health care resources on proactive health care services rather than reactive treatment of acute and chronic illness. This public health program includes the following functions: population health assessment, health and disease surveillance, health promotion, disease and injury prevention, and health protection. In addition, it includes Ontario's share of the costs of blood used by Ontario hospitals supplied by Canadian Blood Services.

LABOUR RELATIONS PROGRAM :

The role of Labour Relations is to promote a stable labour relations climate and harmonious workplace relationships in the province.

The Ontario Labour Relations Board is an independent, quasi-judicial tribunal which mediates and adjudicates a variety of employment and labour relations-related matters under various Ontario statutes. The Ontario Labour Relations Board is responsible for, among other things: certification of trade unions, termination of bargaining rights, unfair labour practice applications, employer applications related to the sale of businesses, illegal strikes and lock-outs, both in the construction and non-construction sectors. The Ontario Labour Relations Board also generally ensures minimum workplace standards through the review of decisions of employment standards officers and occupational health and safety inspectors, as well as mediating and arbitrating other labour and employment disputes with a view to promoting safe, fair and harmonious conditions in Ontario's workplaces.

The Public Service Appeal Boards, comprised of two statutory tribunals, the Crown Employees Grievance Settlement Board and Public Service Grievance Board, are also independent quasi-judicial tribunals that oversee the labour relations of Ontario Crown employees.

The Labour Management Services Program provides neutral, third party assistance to trade unions and employers through collective agreement conciliation and mediation, appointment of arbitrators and collective bargaining information.

REALTY SERVICES PROGRAM :

The Realty Services Program provides strategic real property and accommodation management, on behalf of the Government of Ontario and its ministries, by setting policies and standards, negotiating and administering service contracts, and selling surplus properties. The program ensures optimum use of the province's real property assets and provision of cost-effective design, construction, leasing and property management services in support of ministries and agencies program needs. The program also ensures optimum use of the provincially-owned transmission corridors, where public and other secondary uses are allowed on corridor lands while recognizing the primacy of transmission uses on the lands.

MINISTRY OF NORTHERN DEVELOPMENT AND MINES

NORTHERN DEVELOPMENT PROGRAM :

This program helps build a more prosperous Northern Ontario and strong, vibrant northern communities. The ministry is leading the implementation of the government's Northern Prosperity Plan, a range of targeted initiatives aimed at stimulating growth, job creation and a better quality of life for Northern Ontario. It coordinates provincial economic development initiatives in the North with the Northern Ontario Heritage Fund, Grow Bonds and GO North as its pillars. The program supports strategic investments in infrastructure such as the Northern Highways Program, and markets Northern Ontario's strengths and opportunities to the world.

The program's network of Government Information Centres and area teams provide northerners with access to government programs and services. Through this network, coordinated policy and planning activities, and Northern Development Councils, this program also ensures northerners have a say in the government programs and services that affect them.

MINISTRY OF NORTHERN DEVELOPMENT AND MINES

MINES AND MINERALS PROGRAM :

This program helps build a strong, sustainable provincial minerals sector contributing to the prosperity of all of Ontario. Province-wide geological mapping, online 24-7 access to geoscience information, international marketing, and expert geological advisory services in field offices across the province create a competitive advantage for Ontario - helping a global exploration industry assess Ontario's mineral potential and attracting investment, exploration and mineral development to Ontario. This program's geoscience expertise also supports other government priorities, such as groundwater mapping as part of drinking water protection efforts and identifying new industrial and energy development opportunities.

This program administers the Ontario *Mining Act* to ensure sustainable and responsible development of Ontario's mineral resources. This involves equitable public access to Crown mineral rights, fair and efficient management of Ontario's mining lands, and ensuring safe, environmentally sound mineral development and rehabilitation of mining lands.

MINISTRY OF TRANSPORTATION

SUMMARY

Transportation is a cornerstone of economic prosperity and a strengthened quality of life. Much of what we value, our jobs, our health, our education and our leisure time, are affected by the quality and availability of transportation. Similarly, Ontario's export-driven economy relies upon this same system to move goods and people efficiently and competitively, particularly in the current climate of just-in-time delivery.

The Ministry of Transportation supports strong communities that offer a high quality of life and a positive business climate by building and maintaining a safe, balanced and integrated transportation network within Ontario. Consequently, the ministry is pursuing ways to make public transit a viable alternative by promoting increased convenience, flexibility and accessibility. In addition, the ministry is working to ensure that Ontario's transportation infrastructure is maintained regularly, repaired when necessary and strategically expanded in order to protect public investments and that this is carried out in an environmentally responsible manner.

The ministry is also pursuing new and innovative technologies to ensure that our programs and services meet people's needs and that transportation continues to support job creation, tourism, business investment, trade and a high quality of life for Ontarians into the 21st century.

TRANSPORTATION POLICY AND PLANNING PROGRAM :

The primary focus of the Transportation Policy and Planning program is to plan and promote a safe, efficient and reliable multi-modal transportation system, including transit that supports strong communities, an enhanced quality of life and a healthy economy. To achieve this, the program provides leadership in setting strategic policy direction for the ministry as part of its integrated long-term planning, and works to enable a supportive policy and regulatory environment.

In addition, this program focuses on easing traffic congestion through the promotion of public transit, and facilitating the movement of people and goods along our highways and at our border crossings. It also manages the ministry's inter-provincial and bilateral negotiations with the federal government on a range of transportation related issues including the implementation of various federal investment programs.

ROAD USER SAFETY PROGRAM :

The Road User Safety Program leads key ministry road safety strategies of improving road safety and mobility, by the education, enforcement and regulation of safe driving behaviour, promoting vehicle safety and by improving customer service. Our key objective is to reduce fatalities and injuries on our roads by developing, promoting and participating in road user safety programs. The Road User Safety Program continues to work with many partners including police, community groups, safety organizations and the private sector to continuously improve road user safety.

The key safety responsibilities of the program are to: set safety standards, develop and evaluate policies, programs and regulations for road users, carriers and vehicles; inspect, monitor and enforce compliance with those standards; licence drivers and vehicles; manage contracts and ongoing relationships with service providers; and work with a broad range of partners to educate road users about safe driving behaviour and road user safety policies, laws and programs. Developments in other jurisdictions and traffic safety research are monitored so that road safety initiatives are effective in maintaining Ontario's leading position as one of the safest jurisdictions in North America.

The program is also responsible for managing and improving customer service by setting standards and monitoring performance of service delivery, including the delivery of government products and services through electronic means for individuals and for the business sector and facilitating the delivery of programs for other ministries (e.g., Drive Clean [Ministry of Environment], Family Support Payments [Ministry of Community and Social Services]).

Ministry of Transportation collects information from individuals under the authority of the *Highway Traffic Act*. The ministry maintains stewardship of this information and protects individuals' privacy in keeping with *Freedom of Information and Protection of Privacy Act*.

PROVINCIAL HIGHWAYS MANAGEMENT PROGRAM :

This program oversees the maintenance and operation of the provincial highway network and invests strategically in highway infrastructure to support the development of safe and strong communities in Ontario.

The program manages activities to preserve public investment in existing infrastructure and improve the movement of people and goods on Ontario's highways. Investment strategies include a focus on improving trade corridors leading to key international border crossings and integrating highways with public transportation.

Activities include routine highway maintenance; winter snow and ice control; highway planning, engineering and detailed design; highway rehabilitation; new construction and construction administration.

The program also develops operational policies and guidelines, sets highway maintenance and construction standards, manages research and develops new technologies. In addition to the highway network, the program is responsible for remote airports in northern Ontario and ferry services in various locations across Ontario.

INTRODUCTION

The 2005-06 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1, 2005 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items in order to distinguish between their different functions. This vote/item structure permits the Legislature to be more specific in appropriating funds to particular services. Within each item, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates for the previous year are provided on ministry summary and program summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

Estimates for all legislative offices are presented on the modified cash basis of accounting.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

EXPLANATORY NOTES

NOTE: Spending is forecast for the fiscal year 2005-06 under seven Standard Accounts at the item level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Note on Cost-Recovery Items

In cases where the anticipated recovery of costs of an item is equal to or greater than the expenditures, the balance of the item is shown at the nominal value of \$1,000.

SUMMARY

The Auditor General, who is an Officer of the Assembly, conducts independent audits of government programs, the financial statements of the Province and numerous agencies of the Crown, broader public-sector organizations, and reviews under the authority of the *Auditor General Act* and various other statutes and authorities. The results of these audits and reviews provide assurance, objective information and advice to the Legislative Assembly. In doing so, the Office of the Auditor General assists the Assembly in holding the government, its administrators, and grant recipients accountable for their stewardship of public funds and for the achievement of value-for-money in the delivery of services to the public.

Additionally, under the *Government Advertising Act, 2004*, the Auditor General is required to review specified types of advertising and certain printed matter proposed by government offices to determine whether they meet the standards required by that Act.

Under both Acts, the Auditor General reports the results of the work conducted each year directly to the Legislative Assembly.

MINISTRY OF TRANSPORTATION

TRANSPORTATION POLICY AND PLANNING PROGRAM :

The primary focus of the Transportation Policy and Planning program is to plan and promote a safe, efficient and reliable multi-modal transportation system, including transit that supports strong communities, an enhanced quality of life and a healthy economy. To achieve this, the program provides leadership in setting strategic policy direction for the ministry as part of its integrated long-term planning, and works to enable a supportive policy and regulatory environment.

In addition, this program focuses on easing traffic congestion through the promotion of public transit, and facilitating the movement of people and goods along our highways and at our border crossings. It also manages the ministry's inter-provincial and bilateral negotiations with the federal government on a range of transportation related issues including the implementation of various federal investment programs.
